## REQUEST SHEET

Let me start by saying, at all jobs over 2 hours i will bring all my music (over 4000 cds). This request sheet is for giving me some idea of what you may want played or not played at your function. There is space provided below for some specific songs which you may want played during the event. Please limit your requests because of time and because there are songs and dances which are normally played and will leave a limited amount of time each hour. Also give me some idea of what your guests might want to hear. I will also take requests that day from your guests ( i will make every effort to play these requests ). The remaining music will be selected based on popularity, danceability and crowd appeal. **Return this sheet 2 weeks before the event!**

### REQUESTS
